

# XMS™ Ultra-Performance DIMMs for Intel 865 Chipset

Corsair™ offers a targeted line of modules designed for compatibility with the latest motherboard chipsets released from Intel - the 865PE and i865G “Springdale”. These modules have been comprehensively tested on these 865-based motherboards using many gaming applications and benchmarks. This testing includes extensive application and stress testing on multiple operating systems over voltage and temperature extremes. Product offerings include individual memory modules and matched pairs of TwinX™ modules that have been tested and packaged as a matched set for optimum performance and stability in dual channel DDR motherboards.

## Corsair XMS Ultra-Performance DIMMs for 865PE/G Chipset Motherboards

Mfg. and Model	Size	Memory Speed	RAM Type
CMX256A-3200C2	256 MByte	PC3200 (with heat spreader, CAS-2)	32Mx8
CMX256A-3500C2	256 MByte	XMS3500 (with heat spreader, CAS-2)	32Mx8
CMX256A-3700	256 MByte	XMS3700 (with heat spreader, CAS-3)	32Mx8
CMX512-3200C2	512 MByte	PC3200 (with heat spreader, CAS-2)	32Mx8
CMX512-3500C2	512 MByte	XMS3500 (with heat spreader, CAS-2)	32Mx8
CMX512-3700	512 MByte	XMS3700 (with heat spreader, CAS-3)	32Mx8
TWINX512-3200C2	512 MByte	PC3200 (with heat spreader, CAS-2)	32Mx8
TWINX512-3200LL	512 MByte	PC3200 (with heat spreader, CAS-2)	32Mx8
TWINX512-3700	512 MByte	XMS3700 (with heat spreader, CAS-3)	32Mx8
TWINX1024-3200C2	1 GByte	PC3200 (with heat spreader, CAS-2)	32Mx8
TWINX1024-3200LL	1 GByte	PC3200 (with heat spreader, CAS-2)	32Mx8
TWINX1024-3700	1 GByte	XMS3700 (with heat spreader, CAS-3)	32Mx8

\* Above parts also available as “PT” parts with silver colored heat spreaders.
